ALLOWANCE

This action is in response to the reply received from applicant on 10/11/2004, which has been placed in the file of record.

Allowable Subject Matter

Claims 1-45 are allowed.

The following is an examiner's statement of reasons for allowance: That subject matter which the Examiner considers allowable as per the 8/9/2004 action has been incorporated into every independent claim. As a result, the Instant Application is considered allowable. Those reasons for indicating allowable subject matter in the 8/9/2004 Office Action are restated below:

In particular, the prior art of record fails to teach or fairly suggest (in a system having all of the limitations of claim 1) both primary and secondary pattern mirrors such that the primary pattern mirrors direct a first group of scan lines through the aperture and a second group to the secondary mirrors where they are reflected out of the aperture. The nearest known prior art of record is Acosta (US 6,585,161); see column 3, lines 15-32: primary pattern mirrors exist but only direct light to the secondary mirrors; there is not two groups coming from the primary pattern mirror.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
